PERQUIMANS COUNTY TAX DEPARTMENT

May 31, 2016

NOTE: BOARD OF E&R BEGINS AT 6:35 P.M.

To: Board of County Commissioners

From: Bill Jennings Tax Administrator

Subject: June 6, 2016 Meeting

The Board of Equalization and Review will need to reconvene to discuss and hopefully make a ruling on the appeal brought forth by Stephen and Gloria Hoffman.

 Dawn Winslow (Pearson Appraisal) and I have continued to work on this appeal. We had one qualified golf course lot sale. Because of only having one qualified sale, we looked at all of the existing improved golf course lots with qualifying sales. While trying to keep the lot values in a range of 97 – 100% sales ratio, we took the one qualified sale and came up with a value that would best fit in the range. The value of \$45,000 was a consistent value to keep the properties within the 97 – 100% sales ratio range.

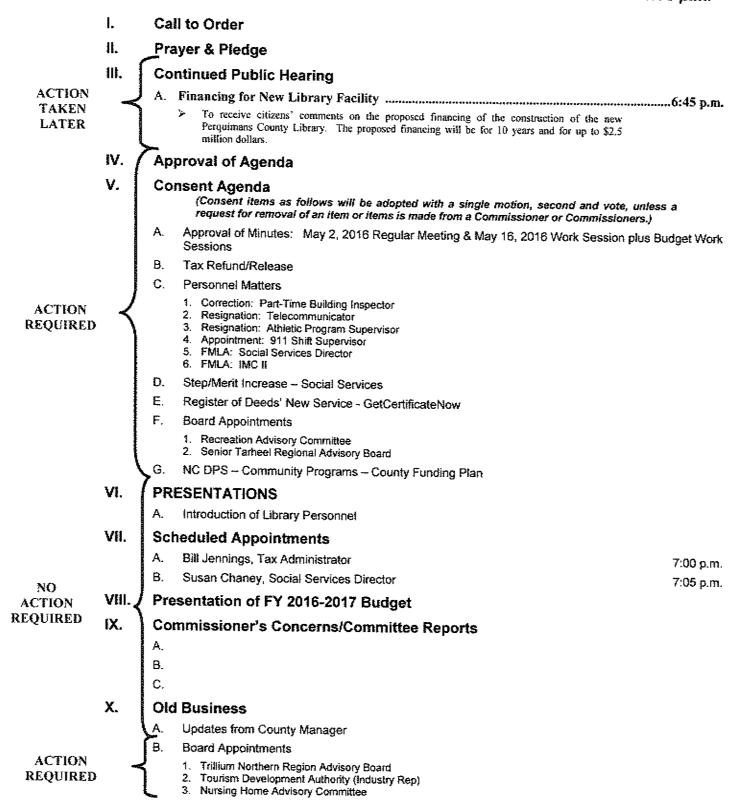

If the Board of Equalization and Review reaches a decision regarding this appeal, I will ask that a motion be made to adjourn the Board of Equalization and review until 2017.

PUBLIC HEARING

Financing for New Library Facility

Chair Cole opened the Public Hearing stating that the purpose of the public hearing was to receive citizens' comments on the proposed financing of the construction of the new Perquimens County Library. The proposed financing will be for 10 years and for up to \$2.5 million dollars. There were 19 people present. Chair Cole recognized County Manager Heath who explained that the architect had to rebid the Library Project to make sure that all the bidders correctly followed the minority business reporting requirements as mandated by the State and adopted by the County. Because of this, the project will be delayed another month. Consequently, we did get some financing quotes from banks but the good through time for those rates was not pushed out far enough. We are going to have to get revised financing quotes. We did get one from BB&T which was 1.88%. Hopefully it will not be more than that. He asked if we could continue this Public Hearing until next month at which time we will have the revised bids and could start the process again. Chair Cole wanted to clarify that the BB&T rate of 1.88% was the lowest rate. Mr. Heath said that it was and that we did receive another quote from PNC which be thought was 2.18%. Mr. Heath said that the Bid Opening is scheduled for May 10th. Edward R. Muzzulin made a motion to continue the Public Hearing until June 6, 2016. The motion was seconded by Wallace E. Nelson. Chair Cole asked if there was any discussion. Commissioner Peeler asked if the one person that signed up to speak at this Public Hearing would still be able to speak tonight or wait until next month. Chair Cole said that it would be best if he wailed until next month to speak after we have all the information. Mary Hunnicutt, Clerk to the Board, said that she would make sure that Bob Bastek would be placed first on the list to speak at the Continued Public Hearing on June 6, 2016 meeting. The motion was unanimously approved by the Board. The Public Hearing was continued until June 6, 2016.

Chair Cole explained that we needed to add an item under New Business on the Agenda. It will be item X.D. Budget Amendment No. 16. On motion made by Edward R. Muzzulin, seconded by Matthew Peeler, the Board unanimously approved the Agenda as amended.

The following questions were asked:

- Chair Janice Cole: Ms. Cole asked Ms. Godfrey what was the difference between the CUP applied for in 2013 and the netual recorded document in 2014. Ms. Godfrey said that the name of the applicant was changed. Other than that all the other conditions were the same. Ms. Cole asked if we had been extending it since 2011. Ms. Layden said that this has been actually a courtesy in doing this. She further explained that they have had a long process trying to get approvals, development investor change, and a two-year wait for Dominion Power approval. She further stated that she had just recently received her feasibility study last week and that the project may or may not proceed. However, it is time for her to stand before the Board and request the renewall extension. One of her investors needs to know that the County is still behind the project.
- Matthew Peeler: Commissioner Peeler asked Donna Godfrey if the roads and safety provisions that were approved back in 2013 would still be consistent with what the Zoning Ordinance requires now. Ms. Godfrey said that she would have to get back with him on that question but believes that the Fire Chiefs gave their input during the Technical Review Committee meeting. This was the

very first Solar Færn approved in Perquimans County once they adopted the provisions for Solar Farms within the County. She further stated that she does not feel that there were no hard and fast requirements by Perquimans County for road improvements. She does feel that there has been a little more requirement since this was approved. Ms Layden said that she has kept the roads up to what is required now. He wants to make sure that the new safety requirements are followed in these power plants and industrial areas. Chair Cole wanted to clarify Mr. Peeler's question and restated the question as, "Is this in compliance with what Perquimans County is now requiring?" Ms. Godfrey said that it was not inconsistent. The Fire Chiefs were able review the plans and make weathers.

Wallace Nelson: Commissioner Nelson asked if there is an expiration date for this CUP. Mr. Godfrey said not really. Ms. Layden is doing this as a contest, right? Ms. Godfrey said that she thought Ms. Layden needed this to take back to her investors.

Edward R. Muzzulin made a motion to approve the extension of CUP-11-02 for one year. Wallace E. Nelson seconded the motion. The motion passed by a vote of five (5) to one (1) with Commissioner Peeler voting against the motion. Chair Cole asked if there were any other questions. Commissioner Peeler asked if she had a Power Purchase Agreement (PPA) with anyone. Ms. Layden said that she has a feasibility study from Dominion Power and said that she could not proceed with obtaining the PPA until she completes three more steps.

He stated that the Board of Commissioners opened their Board of Equalization & Review prior to their meeting tonight with one case being presented to the Board of Equalization & Review.  Marine Industrial Project. Construct the second statement of the project should begin sometime in June, 2016.

- <u>Covotes</u>: Later on in the meeting, the Board will discuss the covote problem. If the Board decides to proceed with fox trapping, he will also discuss that with Rep. Steinburg next week.

BOARD APPOINTMENTS

Chair Cole explained that, for several months, the Board has tabled the appointment to the following Boards/Committees: Trillium Northern Region Advisory Board, Tourism Development Authority (Industry Rep), and Nursing Home Advisory Committee. We still have no candidates. Commissioner Muzzulin said that he and Dave Goss are working on the Tourism Development Authority (Industry Rep) appointment. Chair Cole said that she will make a special effort to find individuals to serve on the other committees by next month. On motion made by Edward R. Muzzulin, seconded by Matthew Peeler, the Board tabled these board appointments until June meeting.

INTRODUCTION OF BILL TO ALLOW FOX (COYOTE) TRAPPING

In March, David Denton, retired N.C. Wildlife, came before the Board to discuss the coyote problem. Since then, County Manager Heath and Chair Cole have been discussing the solution with Cooperative Extension and Rep. Steinburg. On motion made by Edward R. Muzzulin, seconded by Fondella A. Leigh, the Board authorized County Manager Heath and Chair Cole to prepare a Resolution to pursue legislation to authorize fox (coyote) trapping in Perquimans County. Commissioner Peeler wanted to know about including shooting them. County Attorney High said that you can shoot them but not trap them without this change. The following Resolution was prepared and forwarded to Rep. Steinburg:

RESOLUTION IN SUPPORT OF ENHANCED

COYOTE NUISAND REMOVAL

Whereas the population of coyotes in Perquimans County has been a cereinning public nuisance in the form of a threat to domestic livestock, pets, and humans; and

Whereas the licensed trapping of coyotes has been found by the North Carolina Wildlife Resources Commission (WRC) to have significant potential for improving the success rate in dealing with predator coyotes; and

Whereas the WRC has found that the taking of onyotes by trappers increases during overlapping coyote and fox trapping seasons; and

Whereas although covotes may be trapped during WRC established seasons, foxes must be released if taken outside of a county's fox trapping season; and by adding foxes to the species that may be taken with traps under WRC established seasons, the rate of trapping predator covotes incidental to the concurrent trapping and taking of foxes will potentially increase.

Now Therefore, be it resolved by the Perquimans County Board of Commissioners that it concurs with the fandings of the WRC that have been presented to the North Carolina General Assembly House Select Committee on Coyote Nuisence Removal on April 16, 2010, and does further resolve and respectfully request that the Honorable State Senator Bill Cook and the Hanorable State Representative Bob Steinberg introduce legislation on behalf of Perquimans County commensurate with the findings of the WRC described herein, and specifically that Session Law 2009-43 effective October 1, 2011 be now amended to include Perquimans County.

Adopted, this 3rd day of May, 2016 by the Perquintans County Board of Commissioners.

PUBLIC COMMENTS

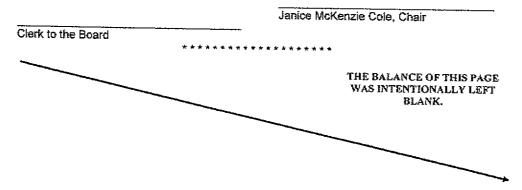

The following public comment was made:

Tommy Harrell: Mr. Harrell wants to know if we have anyone monitoring the fberdroin site. He said that he visited the property the other day and the roads were in bad shape. He also wanted to know if they had provided the County with an Emergency Use Plan to exist with getting medical help to individuals on the property. He also mentioned the size work at the Solar Farm on Snug Harbor Road. He said that they were in such a hurry to get the project completed that they completely destroyed the soil structure. Ms. Godfrey said that, after the projects are completed, they should be contacting the zoning department to have a final zoning inspection to obtain a Certificate of Zoning Compliance.

He is hoping that they will fund the entire \$535,000. Mr. Nixon explained that Chowan County was also receiving this information and will take action on it tonight. Kyle Jones made a motion to approve the above referenced Back Up 911 Memorandum of Understanding. Edward R. Muzzulin seconded the motion. Chair Cole asked if there were any questions. Commissioner Peeler asked that, at \$535,000, it sounds like we are going to do this plan regardless because any other plan would require a new building, new equipment, duplicating of efforts, and more costs for us and another entity. What is the best guess that the 911 System will be able to support most of the \$535,000. Mr. Nixon said that it would be around 50% to 75%. #### NEEDS ASSESSMENT SUMMARY REPORT 111.

- 1. **Risk Assessment Summary**
- Needs Assessment Summary 11.
- **Resource Assessment Summary** 111. IV.
- Summary of Gaps and Barriers in the Community Continuum ٧.
- **Proposed Priority Services for Funding**

#### Part I. Risk

The JCPC reviewed data gleaned from the Juvenile Risk Assessment instrument administered by Juvenile Court Counselors after juveniles are referred with a complaint alleging that a delinquent act has occurred and prior to adjudication of the juvenile. The Juvenile Risk Assessment is an instrument used to predict the likelihood of the juvenile being involved in future delinquent behavior. For some youth, some of the individual item ratings may be heavily dependent upon information reported by the juvenile or the parent(s). For these items (represented with a star next to them), there is a likelihood of under-reporting the incidence of a particular behavior and the actual incidence may be higher than suggested by these figures. In those cases, the figure should be interpreted as a measure of the minimum level of occurrence.

Elevated Risk factors:

- 1) Prior referrals to Juvenile Court;
- 2) School behavior problems;
- 3) Rejection by pro-social peers.

#### Part II. Needs

The JCPC also reviewed data gleaned from the Juvenile Needs Assessment instrument administered by Juvenile Court Counselors prior to court disposition of a juvenile and at subsequent 90-day intervals through the period of court supervision. The Juvenile Needs Assessment is an instrument used to examine a youth's needs in the various domains of his life: The Individual Domain, The School Domain, The Peer Domain, and the Community Domain. This instrument was designed to detect service intervention needs as an aid in service planning. As with the Juvenile Risk Assessment, some of the individual item ratings may be heavily dependent upon information reported by the juvenile or the parent(s). For these items (represented with a star next to them), there is a likelihood of under-reporting the incidence of a particular behavior and the actual incidence may be higher than suggested by these figures. In those cases, the figure should be interpreted as a measure of the minimum level of occurrence.

Elevated Needs:

- 1) Some delinquent peers;
- 2) School behavior problems;
- 3) Domestic discord;
- 4) Family criminality.

#### Part III. Continuum Resource Assessment

The JCPC conducted an assessment to determine local services available to meet the needs of delinquent and at-risk juveniles including those readily available from other funding sources, as well as those currently funded with JCPC allocation and county cash or in-kind match.

# Part IV. Summary of Gaps and Barriers in the Continuum of Services

The JCPC compared the services needed to address elevated Juvenile Risk Factors and Juvenile Needs with services currently available in the community. Services which are currently available from other resources in the community and sufficient to meet the needs of court involved youth or those youth most at risk for court involvement are not prioritized for JCPC funding.

Gaps in the Service Continuum may be a result of limited funding and capacity, geographical or transportation challenges, unwillingness or inability of programs serving general populations to accommodate higher risk juveniles and behaviors, or those gaps that would be created in the continuum if JCPC funding were not appropriated for certain dispositional alternatives, diversion strategies, and evidence supported services directed to juveniles at highest risk of delinquency and/or gang involvement.

- A. List any gaps or barriers other than needed services: No other gaps identified.
- B. List Needed Services Prioritized for Funding: Mentoring, Parenting, Interpersonal Skills, Vocational Skills, Tutoring, Restitution, Teen Court, Psychological Assessments, Counseling, Home-Based Counseling, and Substance Abuse Services.

#### VI. **JCPC Program Enhancement Process**

The Department of Public Safety, in an effort to assist Juvenile Crime Prevention Councils in determining the most effective services and strategies to apply locally has adopted a statewide evaluation method for JCPC funded programs. The Standardized Program Evaluation Protocol (SPEP) allows programs to compare their service type, frequency and duration of services, and risk level of admitted juveniles against results from a meta-analysis of more than 600 programs and services spanning more than thirty years.

Scores have been shared with programs and JCPC members and opportunities for program improvement within the scope of funding and resources available will ensure the highest quality juvenile justice programs are available locally.

Likewise, some programs are largely "settings within which program services are delivered." (Lipsey, 2005). Teen Court, some Residential, or Structured Day services offer vital programming to youth and families and are a necessary part of the service continuum and dispositional alternatives required by legislation.

The JCPC recognizes a combination of these programs may offer the best prevention, diversion and intervention strategies and structures critical to their local service continuum to prevent and reduce delinquency.

#### A. Program Enhancement Plan (PEP)

|   | The STOP program is designed to meet the needs of juveniles through individual and group sessions. The focus of these interventions is to identify and redirect behaviors associated with negative thinking, poor impulse control, and negative pressure. In addition, STOP has incorporated parental contact and participation components, which increases the parents' involvement and responsibility for their child's progress. | Comments:                  |                                                | Program designs will continually be<br>assessed for efficiency.                                |                                                                      |                                                                                                                                      | Work together to identify participants<br>that will benefit most from services. |       |

Column Headers from left to right:

 Total Rxs: This is the total number of Rxs that were adjudicated or attempted to adjudicate through the use of the card (the explanation of the next couple of headers will help explain the necessity of this column).

- 2. Plan Priced Rxs: Caremark tracks all attempts to use the cards including when the pharmacy offers a lower price than the card can give. This is usually when the pharmacy sells a drug at cost or below cost to create foot traffic for the pharmacy or under a special purchase arrangement. This is the amount of Rxs that the card gave the best price vs. the pharmacy.
- 3. % Plan Priced Rxs: What percentage of the total attempted Rxs adjudicated via best price with the card.
- 4. Retail Priced Rxs: How many prescriptions where the pharmacy had a lower price.
- 5. % Retail Priced Rxs: Percentage of Rxs where the pharmacy had a lower price.
- 6. Total Drug Cost: All prescriptions totaled together at their card discount prices.

Mr. Frank Heath and County Commissioners:

The Little River Watershed was once rich in biodiversity with key fish and shellfish areas and swamp forests to mitigate flooding and protect water quality. In 2014, ARCD partnered with the Albemarle Commission to develop a nine-element plan to restore natural hydrology in riparian buffers and impact water quality in the watershed.

Starting in 2016, with grants from the Clean Water Management Trust Fund (CWMTF), the Environmental Protection Agency (EPA 319h) and US Fish and Wildlife Service Partners for Fish and Wildlife, in-stream wetlands are being constructed along main drainage canals and privately owned canals on both the Perquimans and Pasquotank sides of the Little River. ARCD is partnering with Pasquotank and Perquimans Counties, Perquimans SWCD, NC State University and USFWS on this project. NCSU will develop a water quality sampling plan to measure the impact of wetlands on water quality.

ARCD appreciates the ongoing partnership with Perquimans County and your annual investment in our organization. We are committed to keeping you aware of status of this project. Pictures are attached that reflect recent progress on this project.

Please do not hesitate to let us know if you have any questions.

A Note from the President....

What an exciting time this is at PALI So much has been happening lately as we begin to offer classes and partner with other organizations in the community.

As part of the strategic planning process, we held a "Strategic Conversation for the Arts" in late February where representatives from other local organizations and groups met with PAL to begin looking at ways we could all work together to promote the arts in Perquimans County. This has led to many ideas for building community.

PAL is currently working with Perquimans County Schools to help the art teachers find ways to expand what can be offered to their students. The residency and performances by **The Healing Force** (see article), metal working workshop at the middle school and gallery tour and matting/framing demo for high school art students are just a few examples of how this is working. We have also revived the Student Art wall in the gallery and have many fine examples of the work that students on all levels are doing.

One of the important results of the strategic survey is that PAL is now offering a variety of classes, including jewelry making, acrylic painting, basketry and photography. We are also looking at options for collage and watercolor painting workshops. I hope you will let us know if there are other classes and workshops that you would like to see us offer.

Remember, PAL is YOUR community arts council, so we want to be responsive to you!

Feel the Rhythm!

On April 21 and 22, The Healing Force, a family of singers, storytellers and musicians, came to Perquimans Middle School to conduct drum workshops and give performances. Working with small groups on the first day, this group taught students new rhythms and how to perform together on the Djembe, a popular West African drum. The second day brought two performances for all students, faculty and staff. Everyone truly embraced the spirit of The Healing Force! This project was made possible through a Grassroots Grant from the North Carolina Arts Council.

The Perquimans Arts League is supported by the North Carolina Arts Council, a division of the Department of Cultural and Natural Resources.

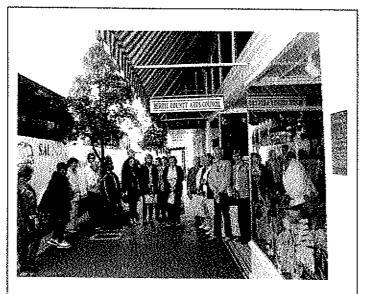

Art Students Visit the Gallery

A group of ten art students from Perquimans County High School came to PAL on May 10 to view the Members' Show and participate in a matting and framing workshop. Led by PAL members Dianne Cinkovich and Sheryl Corr, the group discussed which works they thought took the most time, which had the most value and which one they would choose to hang in their room. The discussion was followed by a demo on mat cutting, where the students had a chance for hands-on practice. Most of the students had never been to Perquimans Arts League before and didn't even know Hertford had an arts league. We hope this visit will change that and they will feel welcome to return!

Hours at the Gallery... Monday - Saturday 10 am - 3 pm

Perquimans Arts League 109 N. Church Street, Hertford, NC Tel. 252-426-3041 www.perquimansarts.org

Field Trip: "The Inner Banks Art Hop"

On April 14th, 32 PAL members and friends went on a bus trip to several area galleries. Stops included Bertie County Arts Council in Windsor, Martin County Arts Council in Williamston and Arts of the Pamlico in Washington. Participants enjoyed lunch in Washington and spent the afternoon visiting other private galleries and shops before heading home.

50/50 Tickets

Enclosed you will find 3 books of 50/50 raffle tickets for this year's fundraiser. As you know, this is one of PAL's biggest fundraisers of the year, so your help in buying and selling these tickets is greatly appreciated. If you need more tickets, they are available in the gallery. If for some reason it is impossible to buy or sell the tickets, please return them to the gallery so they are available for sale.

Strategic Planning Update

In February, PAL hosted a "Strategic Conversation for the Arts", which some of you attended. As a result, we are now looking at new ways to partner with several local organizations to bring more community events to our area. PAL is also offering classes in response to one of the main requests from the online survey.

We are still researching better ways to communicate with the community, and the Communications Committee needs your suggestions and participation. Please consider becoming a part of this group if you have expertise in social media, publicity or marketing.

The Community/Stakeholder Relations Committee will be meeting soon to begin planning for some exciting events. If you have reaching out to people in the community, this may be the committee for you.

PAL can only become **YOUR** community arts council if you play a part!
