

# PERQUIMANS COUNTY

**Position:** Emergency Medical Technician-Intermediate / **Department:** EMS Department  
Advanced Emergency Medical Technician  
**Reports to:** Emergency Services Director **Employee:**

## POSITION DESCRIPTION

Performs responsible work in transporting patients and in rendering emergency medical aid and life saving measures. An employee in this class performs responsible work in transporting both emergency and non-emergency patients and in rendering emergency medical care and life saving measures. Work involves responding to emergency calls, obtaining information from the patient, patient's relatives or by-stander, evaluating the condition of the patient, and providing necessary emergency care and treatment. Work also involves the responsibility for the safe operation, condition and care of the ambulance vehicle ensuring proper functioning of all equipment and adequate stock of supplies, equipment and material used. The employee will assist emergency room personnel when their help is requested by the emergency department staff. Duties require the exercise of independent judgment and discretion in the assessment and evaluation of patient's condition and in determining and administering proper care and treatment. Tact, courtesy and firmness are required in all contacts with patients, witnesses, patient's families and hospital personnel. Duties are performed under general supervision of the emergency services director and shift supervisors who review work for adherence to policies and procedures, efficient service and optimum care to patients.

## JOB DUTIES AND FUNCTIONS
