@ Varieties are listed in descending order according to average yield across locations (i.e. 1 (highest yield) to 24 (lowest yield)). Within locations, the varieties are ranked in descending order according to yield from highest (1) to lowest yielding variety (24). The top 3 yielding varieties within locations and across locations have their ranking marked as follows: 1 (blue), 2 (red), and 3 (yellow).

* The average for five locations includes the Chowan, Currituck, Gates, Pasquotank, and Perquimans sites. Pasquotank site was replicated and yield was an average of the replications.
